## Report of School Board.

---

In compliance with law and custom the school board present the following report of the state of education in the town. Owing to the early date of closing the fiscal year, our statistical table is necessarily incomplete, as the schools at "Rowe's Corner" and "The Junction" are still in session. The teachers of last year who were then successful in their schools were retained, and the progress of the pupils under their charge has proved the wisdom of so doing. We have experienced much difficulty in securing a teacher just adapted to the needs of our advanced school, or we might say, there has been a difficulty in adapting the school to its environment. Notwithstanding, those pupils who were willing to apply themselves to study have enjoyed a profitable year. In looking over the whole town we feel that advancement has been made; there has been a willingness on the part of the parents to cooperate with the teachers in methods of instruction and discipline and an unusual interest in the cause of education has been manifested by the citizens. The process of educating the youthful mind is like the growth of a tree, of slow and often imperceptible additions, but if the conditions are favorable the process is constantly going on. We bespeak a continued interest in our schools and hope each successive year will give us better methods and better facilities for education.
